

Mercy University Hospital, Centre of Nurse Education

Prospectus Spring 2018

Mission Statement of the Centre of Nurse Education

We in the Centre of Nurse Education are committed to providing high quality, accessible education. We view education as a shared undertaking with teaching staff as facilitators and learners as active participants in their knowledge development.

Learning is a life-long process which enables individuals to think critically in the appraisal and application of knowledge, skills, and values as these relate to self, others, and the environment. This philosophy guides our values set out below.

- We seek to excel in the field of education ensuring that our programmes are accredited, progressive and empowering.
- We are accountable to our stakeholders through our collaboration, responsiveness and performance. We strive to act at all times with complete integrity and transparency
- Our service is based on an ethos of fairness and quality. Education is equitable, accessible, flexible and measurable.
- We value and respect each person's contribution, through trust, courtesy and collaboration.
- We continuously strive for innovative enhancement to the services we provide working in partnership with stakeholders for the good of the public.

Foreword

It is with pleasure that I welcome you to the Spring 2018 edition of the Prospectus for the Mercy University Hospital, Centre of Nurse Education.

The availability of continuing education programmes has been prioritised in accordance with available resources and service needs. The CNE produces a prospectus twice yearly, in Spring and Autumn. There are occasions when additional courses/study days are scheduled within the life span of the current CNE Prospectus. In such cases, these will be advertised to relevant stakeholders four to six weeks prior to delivery.

We work in partnership with Higher Education Institutions, Nurse Midwifery Planning and Development and Nursing Practice Development Units. We seek appropriate validation and accreditation for programmes / units of learning from the relevant awarding bodies and from An Bord Altranais agus Cnáimhseachais na hÉireann. All programmes are evaluated and revised as appropriate by the staff of the CNE in partnership with relevant stakeholders.

Please feel free to browse the Prospectus where you will find information pertaining to the continuing professional education programmes offered, including the relevant contact details. I hope the courses on offer facilitate your continuing professional development needs.

Finally, I wish to acknowledge the support of my team and other visiting speakers in the development of this Prospectus. I wish all participants attending the courses well and I look forward to seeing you in the Mercy University Hospital Centre of Nurse Education.

Yours sincerely

Ann Cummins

Director of Centre for Nurse Education, Mercy University Hospital

Staff of the CNE

Staff

Mr. Joe Murphy: Librarian

Ms. Mary Whitaker: Library Assistant

Access

The Library services and facilities are available to:

- All MUH staff
- Students on placement at MUH
- Those attending CNE courses

Role of the Library

The Library's role is to support evidence-based clinical practice and the learning, teaching and research needs of the MUH staff and other designated users. It attempts to do this by providing access to:

- A study area with facilities conducive to reading and study and research
- Print and electronic information resources both locally and remotely
- Instruction in library and information seeking skills

Information Resources

Books (Print): The Library has a large collection of books covering most medical, surgical, nursing and allied health subject areas. Other subject areas covered include Philosophy, Ethics, Sociology, Economics, Law, History, Business and Management. The books are on open access and are catalogued according to the Dewey Decimal Classification Scheme.

Journals (Print): In recent years the Library has cancelled many of its print journals subscriptions in favour of subscriptions to the online versions.

Online Journals: The Library provides online full-text access to thousands of journal titles.

Databases: The Library provides access to the main health sciences bibliographic and full-text databases.

Facilities

There is a spacious and well fitted out study area as well as a computer room comprising of 11 PCs. The PCs have full Internet access, the requisite up-to-date software and printing facilities. The Library also provides scanning and photocopying facilities. There is also a group study room with online access.

Services

Borrowing: Library users may borrow 6 books for a maximum period of two weeks.

Document Supply Service: The Library provides a quick and efficient Inter Library Loan/Document Supply Service. Most journal article requests are satisfied within 24 hours.

Information Skills Training: The Library provides training to groups and individuals to help them identify, locate, use and evaluate the information resources needed to support clinical practice, learning, teaching and research.

Links and Partnerships

In the planning, delivery and evaluation of professional development programme's the Centre works collaboratively with:

- Nursing Midwifery Planning and Development
- Office of the Nursing and Midwifery Services Directorate
- University College Cork
- Dublin City University
- Nurse Practice Development Units
- Directors and Assistant Directors of Nursing and Public Health Nursing
- Advanced Nurse Practitioners, Clinical Nurse Specialists, and all clinical staff from the Multidisciplinary team who contribute to programme design, development and delivery.

Information for course participants

Directions to the Centre of Nurse Education, Mercy University Hospital

Address: 34 Henry Street Cork
Tel: 021 4935184

For directions to the Mercy Hospital, please go to www.muh.ie on the right hand side under “quick links” go to “get directions”. The Centre of Nurse Education is on Henry Street, left hand side (glass fronted 3 storey building, see image on the cover of prospectus)

The Application Process

1. Course places are available to registered nurses and healthcare personnel in the public and private health care systems and voluntary sector
2. Each applicant must submit a completed application form which can be obtained by calling 021 4935184 or by emailing your interest to cne@muh.ie These are delivered via email or facsimile
3. The completed application form must be signed as verification of approval by relevant line manager or nominated deputy
4. Any application form that is incomplete or illegible will be returned
5. Mobile numbers must also be included as this will be the number used to contact the participant via text message. All participants will be sent a reminder of the course and date by text message approximately a week before hand

When to apply and how to access information on programmes?

To reserve a place please return completed application form to Administration, Centre of Nurse Education, Mercy University Hospital, Grenville Place, Cork

What happens if a course is deferred?

A course will be postponed if the minimum number of attendees has not been reached. This will take effect one week before commencement date of programme. Every effort will be made to ensure a programme continues but if unforeseen circumstances occur and a course had to be deferred then each attendee will be contacted by the Centre of Nurse Education at the telephone number listed on the application form.

Non attendance

If a participant fails to attend a course without giving prior notice their line manager will be contacted.

Fees

Registered Nurses working in the Private Sector are welcome to access programmes advertised within this brochure for a fee, please contact Lorna Roche.

Parking

Parking options

Option 1:

St. Finbarr's Car Park, Wandesford Quay (the bridge before the River lee hotel bridge) (Open 24 hrs)

Option 3:

Check <http://www.cork.ie/gettinghereandaround/citycarparks/>

Note:

Rates and opening times are correct at the time of printing, they may be subject to change

DISCLAIMER for the PROVISION of EDUCATION/TRAINING by the MUH CNE

Attendance and/or participation in continuous education programmes which are provided by, or on behalf of the CNE are subject to the following terms and conditions:

Continuous Education Programmes are developed solely for the purposes of the CNE's requirements in the interests of protecting and improving the health of the public in respect of the knowledge and training of nurses and other employees of a healthcare provider who are engaged in a healthcare environment (whether public and/or private).

In light of these purposes, programmes are intended to provide educational information to aid and augment an understanding of the theoretical subject matter presented and/or the practical application of certain skills and competencies.

It is the individual responsibility of each practitioner to assess and maintain his/her own competence in respect of any situation and to assess the limitations of his/her competence. Programmes are not intended to affect, interfere with or limit a person's individual responsibility to practice safely and effectively within his/her scope of practice and in accordance with any local policies, guidelines and/or protocols which may exist.

The CNE shall have no liability, whether in (a)contract, (b)tort, (c)statute or (d)otherwise, for any injury, loss, damage or claim arising out of, or in connection with, any person's attendance and/or participation in programmes including but not limited to the subject matter thereof and/or arising out of the use of any handbooks, guidance notes, other documentation, oral presentations/demonstrations, web-based learning tools or any other instruction or materials provided as part of this course (the "Materials"), howsoever arising.

Any Materials provided by the CNE as part of this programme are provided for information and guidance purposes only. The CNE makes no representation, assurance, warranty or guarantee of any kind whatsoever in relation to the Materials. The provision of the Materials is without prejudice to the obligation of persons attending and/or participating programmes to continually develop themselves as professionals, where applicable.

These terms and conditions are without prejudice to the operation of the Clinical Indemnity Scheme and the professional responsibilities of any persons attending and/or participating in this programme.

Anaphylaxis Training

Aim:

To prepare nurses to correctly recognize and effectively manage patients who develop an anaphylactic reaction.

Content:

- National and international guidelines governing anaphylaxis
- Allergic reactions versus anaphylactic reactions
- 1st and 2nd line drugs
- Community and hospital algorithms
- Supervised workshop
- Preparing and drawing up different medications
- Case scenarios of adult, child and infant who develop an allergic reaction/anaphylactic reaction

Intended Learning Outcomes:

On completion of the programme the participants will:

- Discuss the context of anaphylaxis
- Describe the pathophysiology associated with anaphylaxis
- Differentiate between a mild or moderate allergic reaction and anaphylaxis
- Manage the care of adults, children and infants with anaphylaxis as per nationally and locally agreed guidelines
- Demonstrate the calculations and preparation of Epinephrine for adults, children and infants

Accreditation:

NMBI 4 CEU's

No of Places:

18

Target Audience:

Nurses from all disciplines working in the public, voluntary and private sector who are likely to encounter an anaphylactic reaction as part of their role

Facilitators:

Staff at the Centre of Nurse Education, Mercy University Hospital

Pre-requisites:

- Mandatory BLS skills up to date, within the last 2 years
- Revision of BLS literature / information prior to attending the programme
- You will be informally assessed on your BLS skills and need to demonstrate competence as part requirement for the anaphylaxis course
- If you require a refresher course on BLS please contact the MUH CNE Administrator – Lorna Roche

NB: Based on self assessment of your competency you may need to repeat attendance at this practical training programme.

An Anaphylaxis refresher course is now available on www.hseland.ie but you must first complete the 'face to face' anaphylaxis programme.

Clinical Audit

Aim:

To enable the nurse to undertake Clinical Audit in the practice setting

Pre-requisites:

- Print off and review literature forwarded by CNE and bring with you to Day 1 of course
- Commit to completing an audit of a small aspect of practice and present to group on Day 2 (Day 1 will review all the steps required and templates for use)

Day 1 Content:

- Overview of clinical audit
- The audit process
- Standard setting
- Writing objectives
- Data collection
- Data collation/analysis
- Interpretation of audit findings
- Write up an audit report
- Discuss use of templates
- Outline of project work to undertake an audit in clinical practice to present on day 2

Day 2 content:

Presentation of practice based audit project

- Review audit findings
- Identify root cause of problem and use of various tools
- Quality improvement plan
- Managing change
- Monitoring and sustaining improvement
- Use of various strategies

Intended Learning Outcomes for the 2 day programme:

On completion of the programme the participants will:

- Articulate a definition and understanding of Clinical Audit and how this fits with national quality and risk developments in Ireland
- Define and carry out a clinical audit
- Choose a topic for audit
- Outline the audit methodology
- Define and set standards and criteria
- Analyse the structure, process and outcome
- Collect data for audit

- Collate/analyse the data
- Present a report
- Identify root cause of problem
- Develop a quality improvement plan
- Make changes needed and sustain the change as part of the quality improvement process.
- Use various strategies to sustain the change
- Participate in workshop on the application of tools and techniques

Leading in Uncertain Times

Aim:

The aim of this **2 and a half day** programme is to support nurses and midwives to strengthen their leadership contribution to improving care delivery for patients and clients. The programme will enable participants to make changes to their services to further enhance quality care. As they gain insight into leading in uncertain times, they will become more effective, flexible and agile as leaders of safe, effective person-centred care.

Pre requisites:

- Print off and review the literature forwarded by the CNE and bring with you to Day 1 of course
- Communicate with line manager and commit to undertaking quality improvement project which must be submitted to HSEland within 6 weeks of completing the course.

Content:

- Delivering healthcare in uncertain times
- What is leadership
- 8 leadership strategies for surviving turbulent times
- Team engagement; Team game: Shipwreck
- Team effectiveness
- Understanding and implementing change
- Understanding and resolving conflict
- Understanding authority, role and accountability
- Communicating effectively
- Different models of leadership

Intended Learning Outcomes:

The learning outcomes are that participants will:

- Strengthen their understanding of the role, authority and responsibility of the nurse or midwife as a leader
- Identify their personal and organisation's values and direction
- Recognise the contribution and importance of engagement within the team
- Cultivate sharing and learning; to identify team based supports that improve resilience and team working to deliver effective efficient services
- Contribute to service improvement by using different models of leadership.
Develop the capacity to look to the future during uncertain times
- Become more confident as a leader and use authority and influence wisely
